Hush Foundation – VIC 2023

Hush Foundation was founded in 2000 by Professor Catherine Crock AM, after she sought to enrich healthcare environments for both patients and staff through music and the arts. The Gathering Of Kindness aims to build, nurture, and instil a culture of kindness throughout the health care system.

Since that time, Hush have produced several albums of new Australian music, two books, three touring plays, commissioned new research and have hosted numerous concerts and Gathering of Kindness events.

"We work with artists, patients, health, and care staff to recapture the healing power of kindness through music, the arts, and connecting with people. I believe healthcare needs creative voices to help soften the edges of these stressful environments for people - they can help all of us in the care business to do our jobs even better." Prof Catherine Crock AM
