

## Worldwide SHEroes– NSW 2026

Worldwide SHEroes is a global, award-winning social enterprise advancing gender equality by unlocking the leadership potential of women from diverse and underserved backgrounds.

At the heart of Worldwide SHEroes is the powerful belief that diversity, rather than being a barrier, is in fact the fuel that propels us. Working across cultures, geographies, and sectors — spanning corporate, community, government, and international development — we empower women

from diverse cultural, social, and professional backgrounds to lead with confidence, clarity, and purpose.

Our global network of Talent Connecting with Talent - creates a dynamic ecosystem where differences in culture, perspective, education, and lived experience become catalysts for shared wisdom, personal and professional growth, innovation, and leadership.

Through mentorship and global collaboration, we create meaningful opportunities for women to rise together, expand their thinking, build capability, and strengthen collective impact across communities and borders.

This work is compelling for three key reasons:

- Self-Reliance — overcoming vulnerability and exploitation to achieve greater economic independence.
- Social Progress - women in positions of influence and decision-making drive meaningful change.
- Ripple Effect - when women rise families, communities and future generations rise with them.
