Global Women's Peace Network Assembly

Leadership Advancing a Culture of Heart

*A forum for transformative
leadership*

ABOUT

As a project of WFWP International, the Global Women's Peace Network (GWPN) was launched in 2012 by Dr. Hak Ja Han Moon and her late husband the Rev. Dr. Sun Myung Moon.

Focus areas of action are Women's Leadership, Family, and the Environment.

With guiding principles of interdependence, mutual prosperity, and universal values, WFWP International seeks to 'secure peace through a culture of heart' through the lifestyle of 'living for the sake of others', where every woman is encouraged and supported to become a leader who educates with values.

We are entering a new era where the role of women as peace builders in all sectors is needed more than ever. It is well established that the economic empowerment of women isn't just good for women, it's good for everyone. Likewise, there is a growing body of evidence (McKinsey & Co) showing that when more women sit at decision-making tables, better decisions are made.

The value of mentoring goes way beyond the boosting of individual careers. It provides a means for knowledge transfer across generations and professions, understanding universal values, and gaining 'soft power' skills of peace building and reconciliation that are essential for today's leaders.

WFWP Australia launched the LEADING INTO THE FUTURE mentor program, a GWPN Australia project to encourage leadership of the heart and education with values.

Theme: "Sharing compelling stories among successful women leaders and developing mentoring partnerships with emerging leaders."
